

Jane asked her friends what their favourite sports were. She drew a graph of the results.

1. Which sport was the most popular?

2. How many friends did Jane ask?

3. Which two sports got the same number of votes?

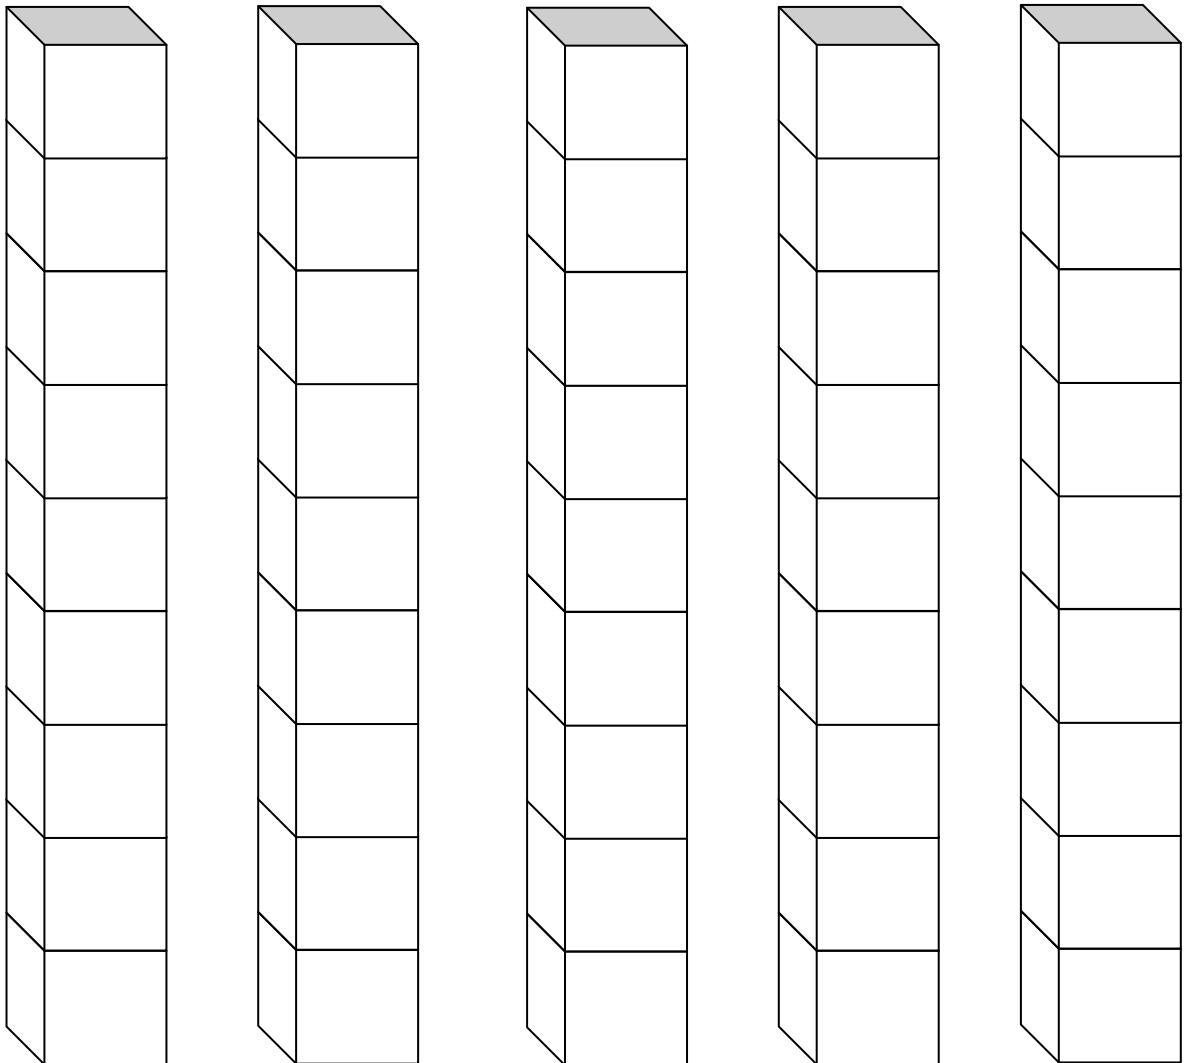

4. How many more chose cricket than basketball?

5. Make your own survey of favourite sports. You can use the chart on the next page to help show your results.

Chart showing my friends favourite sports.
